

OVERVIEW

Through our trust companies we can provide a full range of corporate services in Guernsey in connection with employee benefit requirements, examples being:-

- acting as a corporate trustee of an international pension scheme for expatriate and "third country national" executives
- acting as the corporate trustee of an employee share trust where a UK based trustee would be inappropriate
- acting as an employment services company for the non-UK service of executives with dual contracts

Alternatively, we can establish a Guernsey registered company wholly owned by the client through which such services can be provided to give a greater degree of identity with the parent company for the executives involved (and greater control for the parent company).

Our services are designed to complement whatever other resource our clients may wish to use in any particular case. Thus, we will provide as many or as few of the following services as are required.

CORPORATE SECRETARIAL SERVICES

We can provide local directors and company secretarial services, including provision of a registered office and nominee shareholders, and would arrange Board Meetings and Annual General Meetings. We would also prepare and file the returns required under Guernsey company law.

ADMINISTRATION SERVICES

We would provide administration services as necessary, which would depend upon the business of the company.

ACCOUNTING SERVICES

We would maintain accounting books and records and can prepare quarterly management information and reports as required. Following the year end, we would prepare full annual accounts in an agreed format, and would arrange for their audit if required.
