

OVERVIEW

Pension-Net is an internet based service designed to provide members of pension schemes with relevant information and access to scheme documents and forms. In the case of DC Plans it also provides up to date information about the investments that make up their "Personal Account".

WHAT PENSION-NET PROVIDES

Pension-Net provides a secure and user friendly website which can be tailored to the specific requirements of individual schemes including the corporate logo.

It complements the Pensions Administration Services that BWCI provide. However, we are also able to host this internet service where an employer administers its own scheme in house but would still like to offer the internet capability. We are able to provide access to a demonstration website to provide an indication of the facilities provided through the website.

Depending on the requirements of a particular scheme it can provide.

- a library of scheme reference information
- newsletters and other information
- DC benefit statements that are updated after each contribution cycle, typically monthly
- DB Plan benefit statements updated annually
- a means for members to communicate with the administrator, at times and from locations convenient for them.

HOW IT WORKS

Pension-Net is accessed through a link on the BWCI Group's website (www.bwcigroup.com). Access to an individual member's fund details is via a scheme-specific entry page. A member needs to input their user name, pension number and password before they gain access to their information.

CURRENT CHARGES

- | | |
|---------------------------------|---------|
| ■ Initial website establishment | £ 2,500 |
| ■ Annual maintenance charge | £ 750 |
| ■ Annual per member charge | £ 10. |
