

MEASUREMENT OF INVESTMENT PERFORMANCE

THE ANALYSIS AND REPORT

We offer a service which provides an independent comprehensive overview of the performance and risk of invested assets. The main report is produced annually and provides an executive summary, which relates the high level information concisely and graphically including:

- The performance target
- Fund performance against benchmark
- Cumulative return of the fund against the benchmark
- Development of return and risk over time
- Comparison of fund performance with key indices

The main body of the report explores these, and other areas, in more depth to give a more comprehensive view of the fund's progress. Quarterly reports provide summary updates of the fund's performance against its benchmark.
